

Dear colleagues,

We are pleased to inform you that full papers of abstracts accepted for presentation at the MADEA - 8 conference can be recommended by the Organizing Committee for publication in one of the following journals.

The volume of the manuscript should not exceed 20 pages. Manuscripts exceeding 20 pages can be recommended for publication only after the decision of the Organizing Committee of the conference.

Please prepare your manuscript in English in accordance with the recommendations of the relevant journal.

Authors wishing to publish an article in the journal "Filomat" should proceed in the following order:

- prepare an article in the journal format, strictly following the instructions from the template.
- Submit a pdf-file using the on-line journal system, selecting one of the sections: MADEA-8-Ljubisa Kocinac, MADEA-8-Abdullayev. Note that one author (as an author or co-author) can submit only one manuscript.

Authors wishing to publish their work in some other journal from the list (except for "Filomat") should send a pdf-file of the manuscript to the address of the Organizing Committee (madea2018gmail.com) indicating the name of the desired journal. The Organizing Committee will, after consideration, invite authors to send their manuscript via on-line system of selected journal.

It is important to notice that all manuscripts are strictly peer reviewed by the editorial board of these journals.
